WORK EXPERIENCE

Software Engineer

July 2025 – Present

Mercor

San Francisco, CA

- Contributed to serverless infrastructure using Pulumi, utilizing AWS Lambda and DynamoDB for backend APIs.
- Developed Python and TypeScript function handlers to integrate with APIs, ensuring efficient data processing and reliable system communication.
- Leveraged AWS CloudWatch for system monitoring and logging, analyzing execution metrics to identify model failure patterns and support weekly release cycles.

Founder

April 2025 – July 2025

CoChat.io

San Francisco, CA

- Led a team of 3 across engineering, marketing, and sales, driving product vision and development from 0 to 1.
- Launched MVP in TypeScript/React with PostgreSQL + Supabase backend, shipping core features to 15 test users.
- Engineered AI personalization with embeddings and RAG pipelines, overcoming technical stack challenges through independent research and prototyping.

Software Engineer Intern

June 2023 – September 2023

Ricoh USA, Inc.

Duluth, GA

- Built scalable AWS Lambda microservices in Python, automating processing of 150M+ USPS data points.
- Ensured 100% data consistency by aligning 29 database schemas with Azure DevOps documentation via MySQL.

Software Engineer

March 2020 – September 2022

Tribot LLC

San Francisco, CA

- Delivered a 99.9% uptime automation suite enabling a #2 Global Ranking against 200,000 daily active users.
- Engineered a high-frequency Java autonomous agent using Finite State Machines (FSM) to process complex real-time game states with sub-50ms latency.

PROJECTS

Paper Invoice | React Native, iOS

[PaperInvoice.app](https://paperinvoice.app)

- Shipped an offline-first iOS utility for remote contractors to instantly generate and export invoices, going from concept to App Store approval in just 7 days using an AI-native workflow.
- Achieved "Daily Pick" on Preseedme and acquired 42 active users in Week 1 via organic growth.

Games Ad Free | TypeScript

[GamesAdFree.com](https://gamesadfree.com)

- Bootstrapped a gaming platform to 3,000+ monthly unique visitors with Cloudflare and zero marketing spend.

TECHNICAL SKILLS

Languages & Frameworks: Python, TypeScript, React Native, React, Node.js, SQL, Java

AI & Infrastructure: OpenAI, Gemini, RAG, AWS (Lambda, CloudWatch, DynamoDB, S3), PostgreSQL

AI Workflow: Expert in Claude Code, Cursor, Antigravity, and LLM-assisted development patterns

Certifications: Google AI Essentials (2025), IBM AI Essentials V2 (2025)

EDUCATION

California Polytechnic State University, San Luis Obispo

September 2022 – June 2024

Bachelor of Science, Computer Science

City College of San Francisco

August 2019 – May 2022

Associate of Science, Engineering, Data Science, Science and Math
