WORK EXPERIENCE

Software Engineer

July 2025 – Present

Mercor

San Francisco, CA

- Secured 7 consecutive contract renewals to support leading AI frontier labs, consistently selected by Mercor for new initiatives due to exceptional delivery speed and quality.
- Appointed as Technical Auditor, ensuring high quality data from peer contractors, approving \$25,200 in bonuses.
- Demonstrated expertise in AI training data requirements by rapidly adapting across diverse evaluation frameworks.
- Generated high-complexity training data across Python, TypeScript, and SQL, solving advanced algorithmic and system design problems to fine-tune state-of-the-art coding models.

Founder

April 2025 – Present

CoChat.io

San Francisco, CA

- Led a team of 3 across engineering, marketing, and sales, driving product vision and development from 0 to 1.
- Launched MVP in TypeScript/React with PostgreSQL + Supabase backend, shipping core features to 15 test users.
- Resolved critical architectural roadblocks by maintaining a continuous learning workflow and prototyping solutions.

Software Engineer Intern

June 2023 – September 2023

Ricoh USA, Inc.

Duluth, GA

- Built scalable AWS Lambda microservices in Python, automating processing of 150M+ USPS data points.
- Ensured 100% data consistency by aligning 29 database schemas with Azure DevOps documentation via MySQL.

Software Engineer

March 2020 – September 2022

Tribot LLC

San Francisco, CA

- Delivered a 99.9% uptime automation suite enabling a #2 Global Ranking against 200,000 daily active users.
- Engineered a high-frequency Java autonomous agent using Finite State Machines (FSM) to process complex real-time game states with sub-50ms latency.

PROJECTS

Games Ad Free | TypeScript, Cloudflare

GamesAdFree.com

- Bootstrapped a gaming platform to 4,200+ monthly unique visitors with Cloudflare and zero marketing spend.

Paper Invoice | React Native, iOS

PaperInvoice.app

- Shipped a 0 to 1 iOS invoicing utility for contractors, concept to App Store approval in 7 days using an AI workflow.
- Achieved "Daily Pick" on Preseedme and acquired 42 active users in Week 1 via organic growth.

TECHNICAL SKILLS

Languages & Frameworks: Python, TypeScript, React, SQL

AI Workflow: Expert in Claude Code and LLM-assisted development patterns

Infrastructure: Cloudflare, AWS

EDUCATION

California Polytechnic State University, San Luis Obispo

September 2022 – June 2024

Bachelor of Science, Computer Science

City College of San Francisco

August 2019 – May 2022

Associate of Science, Computer Science, Engineering, Data Science, Science and Math
